

Pricing for commissioned tapestries depends on the size of the piece and the complexity of the design. As an example, a 5' x 7' tapestry would range in price from \$17,500 to \$24,500. An additional ten percent of the cost of the tapestry will be added to pieces designed within the studio. Shipping costs and special hanging requirements are additional.

Each tapestry is woven with a tightly twisted cotton seine twine and wool of the highest quality. The wool is mothproofed and dyed with dyes known for their light fastness. All tapestries are finished according to museum standards and ready for hanging.
